### The International Student Club

#### CTU in Prague (ISC)

We are a group of active, creative and open-minded students from CTU. Always ready to help international students and enjoy your time with you.

Our goal is to create and maintain surroundings where different cultures meet and foreign and Czech students get to know each other. ISC wants to integrate exchange students into life in the Czech Republic and into events at the university. Every semester ISC sets up and runs a "Buddy Program" and organize the Orientation Week. We make the beginning of your exchange and living in the new country as easy as possible and minimize the culture shock you might experience after arriving in the new country.

You can join ISC free language courses, parties, sports lessons, trips around the Czech Republic and abroad, pub quizzes, philanthropic activities, board games and much more! Or you can contribute yourself and organize your event.

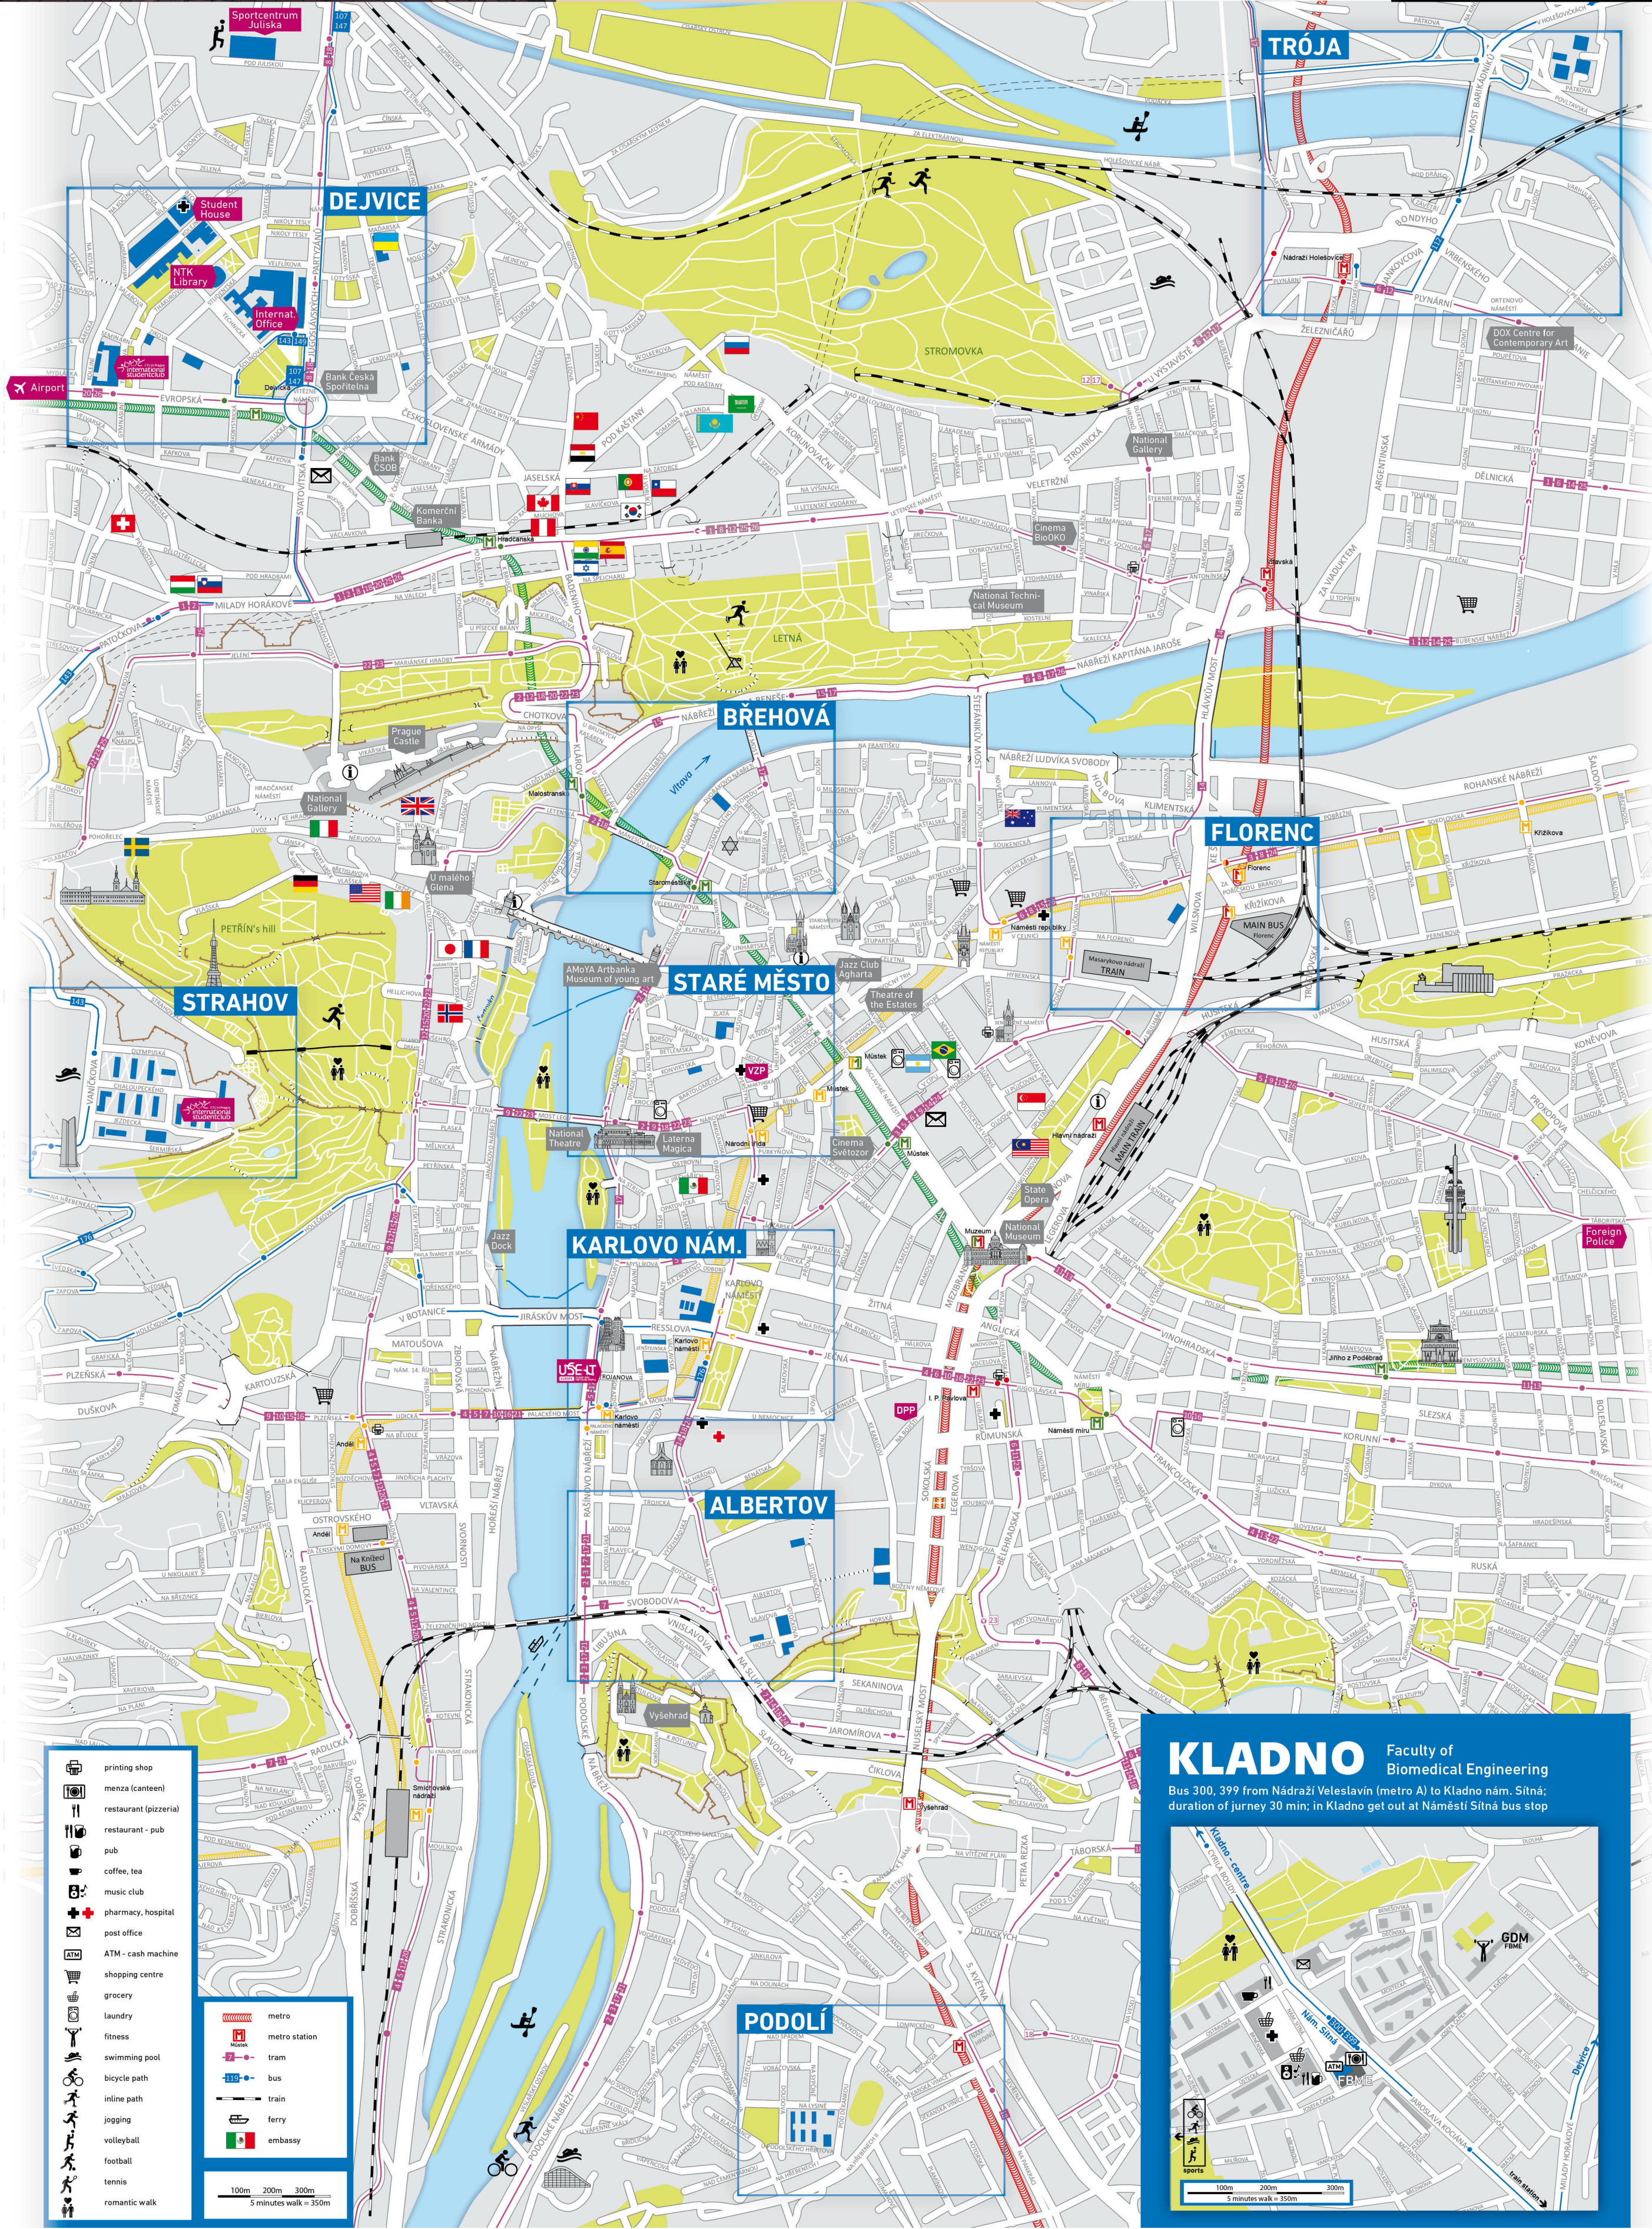

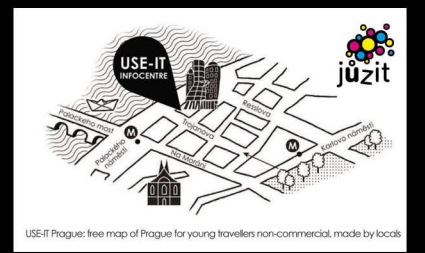

Everyone is always welcome in ISC. Check our webpage [isc.cvut.cz](http://isc.cvut.cz). You can contact us at [isc@isc.cvut.cz](mailto:isc@isc.cvut.cz) or just come to our ISC Point at Masarykova dormitory (Room 304-red, Thákurova 1, Prague 6)

# Useful information

### Textbooks

CTU has its own publishing house, which produces reasonably priced textbooks written by university staff for their students' needs. The books recommended for the classes will be announced at the beginning of each course. Only a limited range of technical textbooks is available in English. You can find them in the bookshop at the National Technical Library, on the main Dejvice campus. [www.cvut.cz/en/university-bookshop-for-specialized-literature](http://www.cvut.cz/en/university-bookshop-for-specialized-literature)

### Libraries

The new National Technical Library, equipped with modern information technology, was opened in September 2009. All the library stocks from the faculties of CTU have been moved there. There is a part of CTU library in the CIIRC building at the 7th floor. An overview and links to all CTU libraries can be found at [www.knihovna.cvut.cz/en/](http://www.knihovna.cvut.cz/en/) (or NTK Library: [www.techlib.cz/en/](http://www.techlib.cz/en/))

### Internet at CTU

In all faculties of CTU students can use plentiful computer facilities with access to the university's computer networks. Each faculty has its own computer labs. Many open spaces are equipped with WiFi so that students with their own laptop can have unlimited access to the internet. In order to get access, you need to have a CTU e-mail account at your own department. This is done during Orientation Week and course registrations. All university dormitories have high speed internet access provided by the dorm students clubs. However, in the foyer of Masarykova Dormitory you can use the internet for free.

### Sport

CTU students have many opportunities for physical exercise and relaxation. A tremendous range of classes is available to students – whatever their level of ability – in a large number of sports: skiing, judo, karate, track and field, canoeing, body-building, soccer, basketball, volleyball, swimming, softball, tennis, frisbee, mountaineering, ice hockey, etc. [www.utvs.cvut.cz](http://www.utvs.cvut.cz) In addition, the International Student Club (ISC) organizes a range of recreational sports activities for international students, and there are plenty of fitness centres, climbing walls etc. in the city. [www.isc.cvut.cz](http://www.isc.cvut.cz)

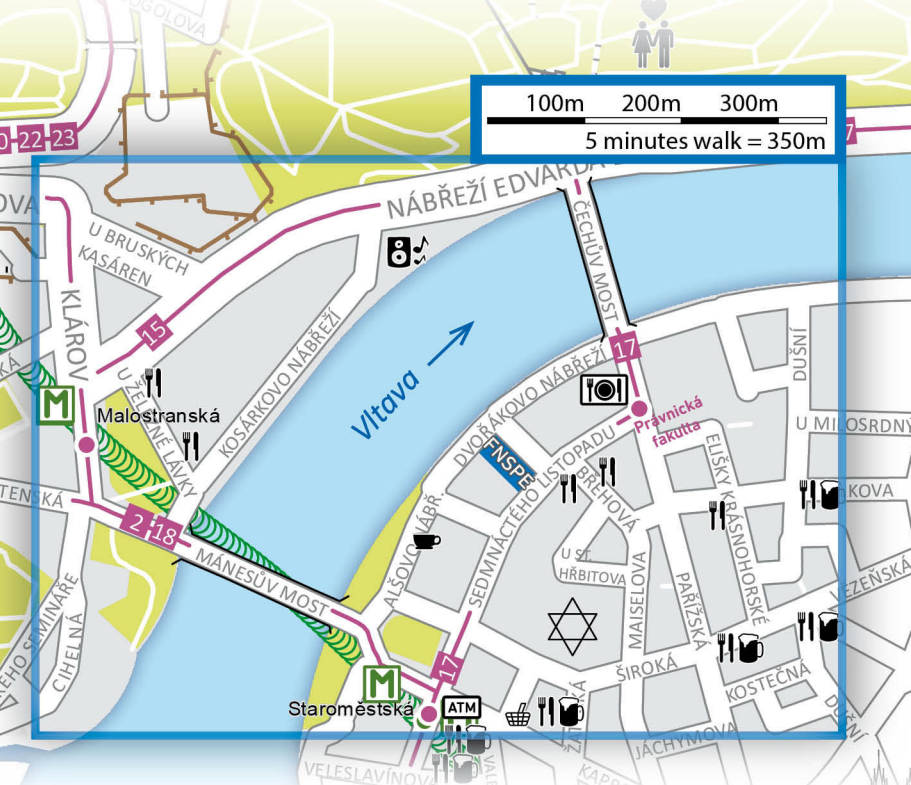

### The Strahov phenomenon

On the Strahov there is a student restaurant, a grocery store and an area for sport and recreation. Students can also use a range of clubs and facilities for bodybuilding, table tennis, rooms for social events, etc. On Strahov there is also an independent radio studio with programmes run by students. Only the Strahov menza (canteen) offers a full catering service (breakfasts, lunches and dinners). In the area around the Strahov stadium you can find many types of sports and recreation facilities. There is a swimming pool, a sauna, a squash centre, a billiards centre, an outdoor climbing wall, and a well-equipped fitness centre. The pharmacy inside the Student House, outside the entrance to the main dining room, is very convenient and is recommended. English is spoken, and you can get not only medicines but also good advice on medication.

### Urgent medical treatment

Necessary and urgent medical treatment is obtainable free of charge. The health care costs are covered by the Czech health insurance fund. For students from the EU, Norway, Switzerland, Liechtenstein and Iceland it is important to have a European Health Insurance Card (EHIC).

### Emergency (dentists)

# Public transportation

### Where to buy a ticket

You can buy tickets from yellow coin-operated machines at metro/tram/bus stations, or from newsgapers (tabák, in Czech). Once you have got your ticket, punch it in the little yellow franking machine before you go down to the metro or as you get on the bus or tram. The ticket is valid from the moment it is punched.

### Ticket inspection

If you are caught without a valid ticket, you will be required to pay a fine of 1500 CZK. Always insist on getting a receipt. If you have bought a public transportation pass but you've left it at home, you will pay only 50 CZK fine if you take your valid pass to Prague 2, Na Bojišti 5 (Metro C – I. Pavlova station), but not later than the following day.

### Taxi

In order to avoid an overpriced ride in a street taxi, we recommend you to call a telephone taxi company, such as AAA Radio taxi (140 14), City taxi (257 257 257), Modry Anděl, Speed Cars and TaxiMat who give an ISIC card discount: [www.isic.cz](http://www.isic.cz)
