Notice:

- a) If the time limit for the submission of the appeal against the assessment of the fee has lapsed and the lapse of the time limit was not waived in the administrative proceedings, the appeal against the assessment of the fee together with the application for the waiver, reduction or deferred due date cannot be satisfied, despite the fact that the above reasons have been documented. Missed appeal can be waived if an application for waiver together with the missed appeal is submitted within 15 days from the day on which the obstacle which prevented the appeal from submitting ceased to exist. The student must also prove that the obstacle was a serious reason which occurred without his/her fault.
- b) Possibility to apply for the reduction of the fee due to reasons 9 to 18 does not apply to students who committed a disciplinary transgression.
- c) In case of concurrence of more reasons for the waiver or reduction of the fee, each case is judged individually taking into consideration the listed limits.
- d) The fee for studies is set individually for each bachelor or master study program. The appeal against the assessment and the application for the waiver or reduction of the fee and deferred due date is also judged individually.

In case of discrepancy, the Czech version prevails.
