Crédit Yann Texier

General Co-chairs

François Rivet, Univ. Bordeaux, France
Guillaume Ferre, Univ. Bordeaux, France

Technical Program Committee Chair

Antoine Frappé, Yncréa-Lille, France
Ricardo Reis, UFRGS, Brazil

Local Arrangement Co-chairs

Marwane Rezzouki, Univ. Bordeaux, France
Romane Dumont, Univ. Bordeaux, France

Liaison chair

Patricia Desgreys, Telecom ParisTech, France

Important Dates

Registration Starts:

February 15, 2020

Registration Deadline:

May 25, 2020

Scope

The Internet of Things domain touches many themes, some of which are in line with humanity priorities for the coming decades. Thus, the 3rd edition of the IEEE Seasonal School on Circuits and Systems for IoT will focus on both environmental and societal aspects through four themes:

During the 4 days of the seasonal school, each theme will be dedicated to a half day of technical, scientific and industrial presentations delivered by international experts or distinguished lecturers of the theme.

Keynote Speaker
Olivier Seller,
co-inventor of LoRa
technology, SEMTECH

« my history with LoRa:
past, present and
future »

IoT Challenge

A challenge to imagine your own connected object based on LoRa technology. You start from an industrial need based on the 4 themes, you think about an object within multidisciplinary teams and you pitch your ideas during an award ceremony.

Conference Venue

Bordeaux INP
1 avenue des facultés
Talence, France
