

How to print out confirmation of studies from IS KOS (New web KOS)

The confirmation is stamped with a qualified electronic seal of CTU, and a qualified time stamp and you can generate it if you meet the following conditions: the student must be a student of an accredited study program and at the same time his/her status must be: studying (must not have interrupted or terminated studies).

Login into the KOS: <https://www.kos.cvut.cz/>. Select „Study“ → „Study documents“.

The screenshot shows the KOS web interface. The sidebar on the left contains navigation items: Dashboard, Courses, Schedules, Terms, Study (circled in red), Study results, Studies and fees overview, Study documents (circled in red), and State exams. The main content area is titled 'STUDY DOCUMENTS' and includes the following sections:

- ELECTRONIC STUDY CONFIRMATION:** A yellow box with an information icon stating: "In this form you can get a study confirmation for the current academic year. This confirmation will be provided by a qualified seal in the sense of the European eIDAS Regulation (EU Regulation No. 910/2014). You can download the confirmation immediately or at any time later in the table below. If the system refuses to issue you a study confirmation, or you need a confirmation in another form (eg a different time period), ask your study department to issue a confirmation."
- LIST OF ISSUED STUDY CONFIRMATIONS:** A table with a checkbox for "Show only last issued study confirmation". The table has columns for ISSUE DATE, DOCUMENT NAME, and DOCUMENT. One entry is shown: 13 Sep 2021, Confirmation of study 2021/2022, with a link to "Study confirmation.pdf#".
- NEW CONFIRMATION:** A yellow box with an information icon stating: "You can only create 2 confirmations within 24 hours".
- FOR ACADEMIC YEAR:** A dropdown menu showing 2021/2022 (selected), 2021/2022, and 2020/2021. A "GENERATE NEW CONFIRMATION" button (circled in red) is next to it.

The footer contains the CVUT logo, copyright information (© 2018 - 2021 Czech technical university in Prague), and contact details. There are also icons for Unpin, HelpDesk, and Page Help.
