

Code:	ČVUT_MP_2023_06_V04
Type:	Methodological guideline
Ref. no.:	CVUT00022709/2023
Scope of application:	ST study
Mandatory for:	ČVUT
Guarantor:	51921 Vice-Rector for Bachelor and Master Studies Doc. Dr. Ing. Gabriela. Achtenová
Issued by:	Doc. Dr. Ing. Gabriela. Achtenová Vice-Rector for Bachelor and Master Studies
No. of pages:	28
No. of attachments:	7
Distribution:	Radka Slabá, Vice-Dean for Study
Relevant to:	employees, students in bachelor and master study programmes
Form of publication:	Inforek
Replaces:	Methodological guideline 6/2006
Issued on	On the day it is signed
Effective as of:	17.02.2025
Valid as of:	On the day it is signed
Other information:	
Signature of the issuing official:	

vice-rector for bachelor and master studies

Change history

Provision	Specification of and justification for the change from the previous version
Entire MG	Replacing the word “published” by “made available to the public” pursuant to the amendment to the Act on Higher Education Institutions
2.4	Change pursuant to the amendment to the Act on Higher Education Institutions
Article 3	Addition of paragraphs 3.3 and 3.4
Article 3	Changes to paragraphs 3.1, 3.2 and 3.5
4.1	Change pursuant to the amendment to the Act on Higher Education Institutions
4.3 and 4.4	Paragraphs removed
5.10	Changes to paragraph
5.11	New paragraph after changes to paragraph 5.10
9.3	Changes to paragraph
Attachments 1a and 1b	Changes to forms
Attachment 2	Changes to form – the word “published” replaced by “made available to the public” pursuant to the amendment to the Act on Higher Education Institutions
Attachment 3	Changes to form – the word “published” replaced by “made available to the public” pursuant to the amendment to the Act on Higher Education Institutions

Attachments.....	16

Art. 1 Opening provisions

- 1.1 A final thesis (hereinafter referred to as "Thesis") is a bachelor's or master's thesis developed as part of accredited study programmes taught at the faculties and higher education institutes of the CTU in Prague (all referred to hereinafter as "Faculty").
- 1.2 Acts described in this guideline are performed for students enrolled in one of the Faculties by the dean of that Faculty and for students of the CTU by the Rector who may delegate this task to the director of the higher education institute involved in the relevant study programme or part thereof (all hereinafter referred to as "Dean"). In matters pertaining to Theses, the Dean may be represented by the relevant vice-dean for education.
- 1.3 Faculties or higher education institutes are subdivided into institutes or departments (all hereinafter referred to as "Department").
- 1.4 For purposes of this guideline, the information system (hereinafter referred to as "CTU IS") means the information system used primarily by a Faculty or other CTU unit for administration and Thesis assignment. For purposes of this guideline, the central CTU information system managed by the CTU Computing Centre is hereinafter referred to as "IS KOS".
- 1.5 This guideline defines procedures concerning:
 - a) electronic assignment, submission and archiving of Theses, reports, records concerning the course and results of Thesis defence
 - b) making Theses available to the public, and making thesis supervisor and thesis reviewer reports and records of the course and results of Thesis defence available to the public in accordance with Act No. 111/1998 Coll., Sec. 47.b on higher education institutions (hereinafter referred to as "the Act"), Act No. 121/2000 Coll., on copyright, as amended, and the Study and Examination Rules for CTU students, as amended (hereinafter referred to as "SER")
 - c) archiving of Theses, reports and records concerning the course and results of Thesis defence in accordance with Act No. 56/2014 Coll. and the CTU Records and Shredding Code, as amended.
- 1.6 For purposes of this guideline, Thesis assignment means a document generated by the CTU IS or the IS KOS, which, regardless of the information system used, shall have a uniform format (see Attachments 1a and 1b of this guideline).
- 1.7 For purposes of this guideline, a record concerning the course and results of Thesis defence means a verbal description of a Thesis defence and the resulting grade in accordance with the SET, as amended. This information is recorded in the 82324 form in IS KOS, from which, in turn, a "Final State Examination Protocol" or a "Partial Final State Examination Protocol" is generated, which then becomes part of the student's file.
- 1.8 Reports mean written evaluation of a Thesis by the Thesis supervisor(s) and reviewer(s).
- 1.9 Thesis Database according to Sec. 47.b of the Act means the database of Theses which is part of the "CTU Digital Library" institutional repository.

Art. 2 Thesis form

- 2.1 The Thesis must be submitted in electronic form.
- 2.2 A Thesis in electronic form means a Thesis text or drawing section thereof in the PDF format. In order to allow plagiarism checks, any verbal information must be kept in a text form, i.e. using characters specified by means of the encoding for the selected font source. In no case can the textual part of a Thesis be submitted in the form of raster or vector graphics or any other form not suitable for machine reading. The maximum size of a single file may not exceed 100 MB. If a Thesis cannot be converted into electronic form (model, etc.), an abridged version (such as a portfolio) can be uploaded. The form and scope of abridged electronic Theses are specified on an individual basis by a Dean's guideline. Theses in electronic form must contain information indicated in Art. 11.1.
- 2.3 Attachments to Theses in electronic form can be in any format. A maximum of 50 attachments, each not exceeding a maximum of 50 MB, can be uploaded.
- 2.4 In the case of attachments requiring larger files, they will be made available to the public in a manner defined by a Dean's guideline.
- 2.5 The Faculty may, by way of a Dean's guideline, make the submission of Theses in hard copy mandatory as well.
- 2.6 If a Thesis is submitted both in electronic form and in hard copy, the two versions must be completely identical in content.

Art. 3 Thesis assignment

- 3.1 The output of the Thesis assigning process is a Thesis assignment generated using the prescribed form, with all items filled (Attachments 1a and b).
- 3.2 The Thesis supervisor, or a person collaborating with the Thesis supervisor with the authorisation of the relevant department head, enters the assignment in the CTU IS or the IS KOS, including the following items:
- Thesis title in Czech/Slovak; in the case of Theses in a language other than Czech/Slovak or English, the title can be entered in the language of the Thesis (maximum length being 180 characters including spaces),
 - Thesis title in English,
 - assigning department,
 - study programme, field of study/specialisation,
 - instructions in the Thesis language or in English
 - literature (optional),
 - name and department of the second supervisor (if any),
 - validity of the assignment (optional),
 - deadline for submission (mandatory information, to be added by the SFE officer before the Thesis is sent for approval)
 - ticking the external assigner box (in cases where the Thesis assignment is entirely based on a request of a department external to the CTU).
- All the above items must be filled in with the exception of recommended literature and the name of the second Thesis supervisor/consultant (if none is assigned). The second supervisor is selected from the teacher database; if the second supervisor is not yet included in the teacher database, the Thesis supervisor shall ask the department's designated staff member to add him/her to the database. After filling in the fields, the Thesis supervisor (or the person authorised by the head of the department) forwards the assignment to the SFE officer for further processing (filling in the deadline for submission field and forwarding to the approval process).
- 3.3 Once the assignment editing is completed (all missing fields being filled in and, if necessary, formal checks conducted), the SFE officer activates the assignment signing procedure by pressing the "PRINT/APPROVE" button in the officer's interface of the IS KOS.
- 3.4 The electronic document kept in the student's electronic file is considered the original assignment. The assignment bears the internal guaranteed signatures of the Dean, the head of the department and the student.
- 3.5 The assignment is signed in the IS KOS in the following order: head of department – Dean/Vice Dean authorised by the Dean – student. After the Dean and the head of department signed the assignment, the text "Approved: date of signature and name of signer" will appear in the relevant signature box. After the student signs the assignment, his/her name and the date of signature appear in the relevant box. Once signed, the PDF file will be stamped with an electronic seal with a qualified time stamp. The document will be filed in the student's electronic file and will be accessible to the student via the IS KOS. The student will add a plain electronic copy to the Thesis. The IS KOS will switch the thesis status to "assigned".
- 3.6 The Czech form is to be used for Theses in Czech study programmes. The English form is to be used for Theses in English study programmes (or for programmes accredited in another foreign language).
- 3.7 Both the electronic and hard copy version of a Thesis includes the assignment downloaded by the study from the CTU IS or the IS KOS.
- 3.8 Other details of Thesis assignment (including deadlines) are governed by the Dean's guideline.

Art. 4 Thesis being made available to the public with deferral

- 4.1 If it becomes apparent at the time of the Thesis assignment or development that the Thesis must be processed under a regime with deferred making it available to the public, the student must (after the Thesis supervisor attaches a statement to this effect to the request form) present a reasoned request for the deferred making the Thesis available to the public (Attachment no. 2) no later than 30 days before the deadline for submitting the Thesis. The next steps, or another (extended) deadline prior to Thesis submission date for submitting the request to each CTU unit, are defined in accordance with the Dean's guideline; the head of department and the Dean must always give their opinion on the request. This decision becomes part of the student's file and must be entered into the IS KOS by the study department of the relevant CTU unit no later than a week before the deadline Thesis submission deadline. The study officer also sets the period of deferral of making the Thesis available to the public in the IS KOS according to the Dean's decision. Based on this entry, the IS KOS sends a message to the student confirming that deferral request of making the Thesis available to the public was approved and indicating the length of the deferral. If the request is not approved, the study department notifies the student, the head of department and the Thesis supervisor of this fact the grounds for the decision by e-mail.
- 4.2 For the Thesis under the regime with deferred making it available to the public, persons who come into contact with the Thesis may be required to sign affidavit of confidentiality (Attachment no. 3) in accordance with the internal regulations of the relevant CTU unit. An authorised member of the department staff asks members of the Final State Examination committee to sign the affidavit. The Thesis supervisor signs the affidavit of confidentiality as of the Thesis submission date.
- 4.3 Theses with deferred publication are submitted in both electronic and hard copy form.
- 4.4 Immediately after Thesis defence, the hard copy of the Thesis with deferred publication is handed over to the Faculty's study department, which forwards it to the department of study and student affairs of the Rector's Office, which in turn centrally arranges for the sealed Thesis to be forwarded to the Ministry of Education for archiving purposes.

Art. 5 Thesis submission

- 5.1 The student must submit his/her Thesis including attachments **in electronic form by the set deadline**.
- 5.2 The student confirms his/her declaration of independent work and use of AI (Attachment no. 4) with an internally guaranteed signature in the IS KOS. For purposes of both the hard copy and the electronic versions of his/her Thesis, the student (after signing) downloads the declaration from the IS KOS and attaches to his/her Thesis.
- 5.3 The student submits his/her Thesis in electronic form through the CTU IS or the IS KOS. The student must declare all information regarding the Thesis, attach a file containing the Thesis and all its attachments (to ensure identification in the CTU IS or the IS KOS, the files are automatically renamed after they are uploaded to the system).
- 5.4 For the Thesis under the regime with deferred making it available to the public, the period of publication deferral automatically applies to all attachments to such Theses.
- 5.5 The student is responsible for the accuracy and completeness of his/her Thesis submitted in electronic form including all attachments uploaded to the CTU IS or IS KOS. The student is also responsible for full conformity of the hard copy and the electronic form of his/her Thesis in cases where the Faculty requires both versions to be submitted.
- 5.6 For purposes of making the Thesis available to the public by the “CTU Digital Library” institutional repository, no licensing agreement between the student and the Faculty/institute is required. By submitting his/her Thesis, the author consents to its making available to the public in accordance with the Act regardless of the results of his/her Thesis defence².
- 5.7 CTU has the right to use students' Theses for teaching or its own internal use, but not for its direct or indirect economic (material) gain. In order to use student Theses that are not covered by the previous sentence of this paragraph, the contractual parties (i.e. the student and the Faculty) may enter into an appropriate type of contract such as a Licence Agreement (for a template see Attachment no. 6), an Assignment of Rights Agreement (for a template see Attachment no. 7), an Agreement on the use of a Thesis, etc. (hereinafter referred to as “Agreement”). Agreements between students and Faculties are signed on an individual basis by the relevant Faculties. The Agreement is prepared by the Thesis supervisor's department and two copies therefore are signed by the student and the Dean. The student will receive one signed copy of the Agreement and the second copy will be added to the student's file. The Thesis supervisor will be notified of the signature of the Agreement.
- 5.8 The Dean may issue a guideline requiring that Theses be submitted in hard copy form and defining the rules for access to the hard copies applicable uniformly across the relevant Faculty.

² Art. 35.4 of the SER

- 5.9 The Faculty has the right to require Theses to be submitted to checks in a plagiarism detection system (hereinafter referred to as “anti-plagiarism system”), support for which has been implemented in the IS KOS or the CTU IS. The Faculty may decide to apply the Thesis checks up to the level of study programmes. These checks do not apply to Theses with deferred making available to the public. After submission, Theses selected for plagiarism checks are sent by the IS KOS or CTU IS to the anti-plagiarism system for analysis. The results of the check are made accessible in the IS KOS or the CTU IS to the student, the thesis supervisor and reviewer, or to the responsible staff member designated by the head of department that guarantees the study programme or field of study/specialisation. The Thesis supervisor or the designated staff member evaluates the output of the anti-plagiarism system using a binary evaluation (OK = the match indicated by the system does not concern the substantive content or is properly cited; NOK = reasonable suspicion of plagiarism) and enters the evaluation into the CTU IS. The finding will serve as basis for the State Final Examination committee’s discussion and becomes part of the student’s electronic file together with the Thesis Supervisor’s Report and the Thesis Reviewer’s Report.
- 5.10 The student may use artificial intelligence tools in the development of the Theses. As with literature citations, the student must declare and properly indicate the use of AI tools for any part of the Theses (text/image/...) generated with the help of AI; simultaneously, the student obliged to declare the use of artificial intelligence tools in their declaration (see Attachment 4). The student fills in and signs the declaration in the IS KOS. After signature, an electronic seal with a qualified time stamp is affixed to the declaration. The electronic original is added to the student’s file. The student downloads the declaration from the IS KOS and attaches it to his/her Thesis.

Art. 6 Thesis check and approval by the Thesis supervisor

- 6.1 The Thesis supervisor checks the information entered by the student.
- 6.2 The Thesis supervisor or a person authorised for this purpose by the head of department either accepts the Thesis or returns it to the “assigned” status. The Thesis supervisor must give his/her opinion on the Thesis no later than 5 workdays after the submission of the Thesis. If the supervisor fails to meet this obligation, the IS KOS automatically changes the Thesis status to “accepted”.
- 6.3 If the Thesis is returned to the “assigned status before the deadline for Thesis submission the Thesis supervisor may attach a comment to the Thesis in the CTU IS or the IS KOS advising the student regarding, for example, formal deficiencies that need to be corrected. The student then can modify his/her Thesis and resubmit it.
- 6.4 If the Thesis supervisor or a person authorised for this purpose by the head of department returns the Thesis to the “assigned” status after the submission deadline, the student must consult his/her Thesis supervisor or the study department about options for further action.
- 6.5 No later than five workdays after the Thesis is accepted, an officer of the department for state final examinations (hereinafter referred to as “SFE”) enters information regarding Thesis reviewers into the CTU IS. The CTU IS then automatically sends an email to the Thesis reviewers, with a copy to the head of institute/department and the SFE officer, requesting a Thesis report and setting a deadline for report submission. The SFE officer can edit the text of this email in the CTU IS before sending.
Furthermore, external reviewers and supervisors are automatically sent an email with access rights to the CTU IS valid until the end of the SFE examination period in the given semester.
- 6.6 If a reviewer accepts for review a Thesis under the regime of deferred making it available to the public, an authorised officer of the assigning department may ask the reviewer to sign an affidavit of confidentiality (Attachment no. 3) (if stipulated in the Dean’s guideline). The reviewer is provided access to the electronic version of the Thesis after the affidavit of confidentiality is signed and its receipt is confirmed by the authorised officer.
- 6.7 Members of the SFE committee can read the Thesis, including Attachments and reports, in the CTU IS or the IS KOS. For this purpose, they are provided with one-off access rights to the CTU IS valid until the end of the SFE examination period in the given semester.

Art. 7 Submission and filing the reports and making them available to the public

- 7.1 Thesis supervisors and reviewers submit their Thesis reports in electronic form. External supervisors and reviewers are provided with one-off access rights to the CTU IS generated for this purpose and valid from the date of their consenting with reviewing the Thesis until the end of the SFE examination period in the given semester.
- 7.2 Thesis supervisors and reviewers upload their Thesis reports into the IS KOS in electronic form in the PDF format by the relevant deadline for report submission. The use of the one-off access rights for reviewers and log-in or CTU staff is treated as equivalent to attaching an internal electronic signature. The IS KOS and the CTU IS offer a Thesis supervisor report template (Attachment no. 5a + Attachment no. 5b) and a Thesis reviewer report template (Attachment no. 6a + Attachment no. 6b); supervisors and reviewers may also upload their own reports or reports conforming to requirements set forth in guidelines provided by the Faculty Dean/institute director.
- 7.3 The reports must be uploaded into the IS KOS and made available to the student no later than 5 workdays before the date of his/her Thesis defence³.
- 7.4 The electronic version of a review can be uploaded to the IS KOS directly by the author of the report or by his/her authorised representative.
- 7.5 Reports concerning study programmes accredited in the Czech language must be written in Czech or Slovak or the language of the Thesis. Reports concerning study programmes accredited in other languages must be written in the study programme's language or in English.

³ Art. 35.3 of the SER

Art. 8 State final examination

- 8.1 The student registers a SFE date in the IS KOS under the conditions and in the period specified by the Faculty.
- 8.2 SFE organisation, preparation of documents, schedule, composition of examination boards, the course of SFE, etc. are governed by Faculty regulations.
- 8.3 Members of the SFE committee can access and read the Thesis in electronic form, including attachments and reports, in the CTU IS or IS KOS prior to the Thesis defence.
- 8.4 The SFE protocol can be filled online in the IS KOS – in the 82324 “Evaluation” form. The form is accessible to individuals with the “SFE Officer” or “Committee Administrator” role. The protocol is then printed out of the IS KOS and signed by all members of the SFE committee and the student to confirm that the results of the SFE were duly communicated to the student. If the protocol is not created directly in the IS KOS, information from the SFE protocol must be entered into the IS KOS no later than two workdays from the date of the SFE.
- 8.5 In cases where Sec. 95c of the Act applies or in the case of study programmes accredited for distance learning, the correctness of information entered into the system concerning distance-form SFE must be confirmed by the committee secretary using his/her internal guaranteed signature. The student confirms that he/she was made aware of the results of the SFE by entering this information in the IS KOS.
- 8.6 The record of the course and result of the Thesis defence is transferred from the IS KOS to the “CTU Digital Library” institutional repository where it is made accessible to the public.

Art. 9 Making Theses available to the public

- 9.1 A Thesis submitted by a student for defence must be made accessible to the public at the CTU facility where the defence is to take place no later than five workdays before the defence date. In the case of Theses submitted in electronic form, one-off access rights to the IS KOS or CTU IS may be granted upon requests for these purposes. Details concerning such access rights are regulated a Dean's guideline. Anyone may make extracts or copies of a Thesis made available to the public at his/her of expense. The Dean's guideline may specify the calculation of the cost necessary for extracts, copies or reproductions.
- 9.2 In the case of Theses where a deferral of making them available to the public is granted by the Dean, information regarding this deferral including the reasons for the decision to defer making the Thesis available to the public must be made available to the public in the same place where Bachelor's Theses, Master's Theses, Doctoral Theses and Rigorous Theses are made available to the public.
- 9.3 Theses including reports are made available to the public through the "CTU Digital Repository", the institutional repository, after their defence.

Art. 10 Filing and archiving of Theses

- 10.1 The electronic form of a defended Thesis, including reports and records concerning the course and results of the Thesis defence, becomes part of the student's electronic file and kept and archived in accordance with the CTU Records and Shredding Code, as amended.
- 10.2 Hard copies of Theses are kept at the relevant Faculty or in the Central CTU Library, unless otherwise specified. The Dean specifies the place of archiving and duration of accessibility.

Art. 11 Uniform formal structure of Theses

11.1 Electronic Theses must contain at least the following:

a) Title page.

The title page states the title and, if applicable, a subtitle, of the Thesis in the language of the Thesis, the name and surname of the author, the type (Bachelor's, Master's) and year of the Thesis, the full name of the university, Faculty and department, the CTU logo, the name and surname of the Thesis supervisor. The title page should also indicate the study programme and specialisation/field of study. This information is stated in Czech (if the Thesis is written in Czech or Slovak) or in English (if the Thesis is written in any other language). The choice and approval of the Thesis language is defined in Art. 6.4 of the SER.

b) Assignment.

The assignment generated through the IS KOS.

c) Declaration of independent work and the use of AI tools.

The declaration of independent work and the use of AI tools generated through the IS KOS (Attachment no. 4). The declaration is made in Czech (if the Thesis is written in Czech or Slovak) or in English (if the Thesis is written in any other language).

d) In Theses by students in study programmes accredited in the Czech language, the abstract and keywords are stated in Czech and English or in the language of the Thesis (if other than Czech, Slovak or English).

In Theses by students in study programmes accredited in other languages, the abstract and keywords are stated in English and in the language of the Thesis (if other than English).

For abstracts in both Czech and English, the minimum number of characters is 150 and the maximum number is 4,000.

For keywords, the minimum number of characters is 20 in Czech and 30 in English and the maximum number of characters is 1,000 for both languages.

e) The text of the Thesis.

11.2 Furthermore, a hard copy of a thesis must also include:

a) Text on the cover.

The cover of the Thesis must state the full name of the university and Faculty, the type of Thesis (Bachelor's, Master's), the name and surname of the author and the logo of the CTU in Prague in Czech (for Theses written in Czech or Slovak) or English (for Theses written in any other language).

11.3 Any other requirements may be specified in the Dean's guideline.

*) Tick your opinion

***) Detailed justification can be given on the next page

Procedure for submitting the request:

- Deadline for submitting the student's request, including an attached consent of the Thesis supervisor, to the head of department/institute: no later than 30 days before the deadline for Thesis submission.
- The request, including consent of the head of department is submitted to the Dean for decision (see Art. 4.1 of the Thesis Methodological Guideline).
- After the Dean's has decided, the request is forwarded to the study department no later than a week before the Thesis defence date.
- The maximum length of the deferral of making the Thesis available to the public is three years (Sec. 47b of Act No. 111/1998 Coll.).
- If the Dean agrees with the deferral:
 - The study department officer sets the length of the deferral of making the Thesis available to public in accordance with the Dean's decision (see Art. 4.1 of the Thesis Methodological Guideline) and uploads the Dean's decision to the IS KOS.
 - The IS KOS sends a notification email to the student.
- If the Dean rejects the deferral:
 - The study department officer notifies the student, the Thesis supervisor and the head of department/institute by email and adds the request to the student's file.

Student's detailed justification of the deferral of making the Thesis available to the public:

Detailed reasons for the rejection by the Thesis supervisor / head of department (institute) / dean of the faculty (director of the part:
