Programa de movilidad internacional

APPROACH

The Basque Government, with the aim of finding operative solutions for emerging new realities and future challenges, both for European and global spheres, launched the programme “Global Training” in 2012. This programme promotes transnational mobility among young Basque graduates to carry out activities and projects related to their academic and professional profile at companies and organizations in foreign countries, with a previously planned training programme, during 6 months.

AIM OF THE PROGRAMME

- To promote internationalization among young Basque graduates by carrying out **international internships directly linked to a professional activity**.
- To promote **economic and social cohesion through cooperation** between different agents and the generation of **mutual benefit** both for the young graduate and the host institution.
- To reinforce the role of **practical international learning** as a generator of citizenship, knowledge, intercultural dialogue and an opening towards other peoples and cultures.

**Mondragon University is a managing body of this internship programme
funded by the Basque Government**
