INTERNATIONAL STUDENT INFO-GUIDE

Central Library of the CTU in Prague

Information all around us...

We are building a collection of information resources tailored to the needs of CTU users. Electronic information resources are available anytime/anywhere – 24/7. Our activities are also focused on providing practical skills and knowledge that you can use not only during your university studies, but also in your personal and professional life.

CTU CENTRAL LIBRARY

One name, four libraries.

- Central library in Dejvice (NTK building, Technická 6, Prague 6)
- Local library of FNSPE (Břehová 7, Prague 1)
- Local library of FD (Horská 3, Prague 2)
- Local library of FBME (Sítňá 3105, Kladno)

These spaces offer more than just access to study materials – you can also relax between lectures, connect with friends, collaborate on projects with classmates, and much more.

EASY AND FREE LIBRARY ACCESS

Signing up is completely free, there's no need to provide proof of residence, and you can borrow materials for up to 180 days.

ACADEMIC WRITING

A section of our website where you'll find information and useful tips on how to write an academic text.

- Information management
- Academic Texts: Structure and Style
- Publishing
- Research evaluation

CHECKING ACADEMIC TEXTS IN ENGLISH

- iThenticate (Turnitin) – plagiarism detection
- WRITEFULL – a tool for checking spelling, grammar, and style

CONSULTATIONS – online or in person

Are you writing a thesis or another academic text? You can take advantage of consultations on a variety of topics, such as:

- How to effectively search for literature
- How to cite correctly and use citation tools
- How to publish in a scientific journal
- How to recognize a predatory journal
- Open Science topics – Open Access, research data
- and more

ASMR:
LIBRARY SOUNDS

E-LEARNING COURSES

- Searching for Information Resources (for undergraduate students)
- Information for Science and Research (for postgraduate students)

...AND SOMETHING ESPECIALLY FOR POSTGRADUATE STUDENTS

OPEN SCIENCE Portal

The CTU Central Library is the coordinator of Open Science at CTU and offers methodological support in the area of Open Access and research data, specifically:

- Publishing in Open Access journals
- APC fees and discounts for publishing
- Working with research data (FAIR data)

EDITORIAL OFFICE OF ACTA POLYTECHNICA

Opportunity to publish a scholarly article in a peer-reviewed scientific journal with an Impact Factor under the Diamond Open Access model.

Support for young, early-career authors in:

- Writing scientific articles
- Publishing standards
- Selecting a scientific journal
- Author identifiers (e.g. ORCID)

CITATION DATABASES

We provide access to and manage the citation databases Scopus and Web of Science, along with their analytical tools SciVal and InCites.

We offer support with editing and linking author profiles to ORCID, tracking citations, identifying quality journals for publishing scientific articles, and more.

DOCTORAL DAY (not only for Ph.D. students)
